

DATAEUM

DATA REVOLUTION

OUR MISSION

Dataeum aims to put humans at the epicenter of the data ecosystem. We offer the first collaborative and decentralized platform for Data Generation.

Using crowdsourcing, Dataeum's solution enables the collection of 100% of any physical data such as stores, ATMs, gas stations, museums... all done with 100% accuracy.

WHO CREATES THIS DATA?

Without even knowing it, **humans** have become instruments of data collection through their actions, behaviors and movements.

WHAT WE DO

Dataeum's community is the backbone of data collection. Validated through a blockchain-based process, the data is made accessible on a decentralized marketplace.

We are democratizing the access as, data acquirers can get reliable and accurate data in real time and data collectors are remunerated for their generation of data.

CONCLUSION

With Dataeum, humans are rewarded for the data they generate. We will change the existing paradigm so that data generation will no longer be exploited by large corporations at the expense of individuals who create it.

Supported by millions of people around the world, Dataeum will be the ultimate data platform reference. Humans will be its main resource as they will fully integrate the data ecosystem.
