

PAXFUL
MONEY YOUR WAY

The image features a dark purple background with a white, stylized shape in the center. The shape has a pointed bottom and rounded corners. The word "PAXFUL" is written in white, bold, uppercase letters, with a blue diagonal slash through the "X". Below it, the tagline "MONEY YOUR WAY" is written in white, uppercase letters. The background is decorated with several hexagonal patterns of varying sizes and colors, including white, light purple, and dark purple. The overall design is modern and tech-oriented.

Our Company

There are over 2.5 billion people in the world that have limited or no access to financial services.

Since **2015**, Paxful's mission is to give the people a simple, fair, and secure platform for trading bitcoins. We aim to bring financial inclusion to the underbanked and unbanked through **peer-to-peer finance**. Every user gets a free digital wallet that lets them send, receive, and store bitcoin. We're cutting out the middleman with our secure escrow service and provide help to our users with 24/7 customer support system.

With over 100 employees in different locations across the globe - the Paxful team is united in building a global peer-to-peer marketplace for people around the world to access their finances their way. Visit our website, www.paxful.com.

How It Works

Through Paxful, there are **over 350 payment option** our users can use to buy and sell **bitcoin**.

Easy. Secure. Instant.

#BuiltWithBitcoin

Paxful launched the #BuiltWithBitcoin charitable initiative in 2017 to show that bitcoin can help people around the world.

With the goal to build 100 schools, water wells, and community gardens for sustainable agriculture funded entirely by bitcoin all across Africa, the initiative showcases the capability of charity and philanthropy within the crypto industry.

To date, we have built two schools - a nursery, and a primary school in Rwanda, Africa- and provided scholarships to Afghan refugees.

We encourage the cryptocurrency sector to contribute more to humanitarian projects. The #BuiltWithBitcoin initiative is an example of bitcoin being used as more than a speculative tool but a testament to the usefulness of cryptocurrency.

Our First School Built with Bitcoin

In partnership with ZamZam Water, we completed the construction of a nursery school in **Kasebigege Village, Rwanda**. The nursery school has **three classrooms**, a **portable irrigation system with four lavatories**, and a **15,000-liter water system**.

The project benefits children between the ages of three to six in a village of 7,500 people. The project also includes a farm, which will encourage sustainable agriculture for the whole village.

Scholarship Program for Afghan Refugees

As part of the expansion of the #BuiltWithBitcoin initiative, we granted more than **\$15,000** in scholarships to help female Afghan refugees pursue their careers in the U.S.

The scholarship recipients are **Susan Naseri**, who is interested in non-profit work and law; **Dunia Azizi**, who will pursue a mathematics degree; and **Farzana Nawabi**, who is working towards a bachelor's degree in nursing.

Primary School for 300 students

Through our continued partnership with the people of ZamZam Water, we are building another school in Rwanda dedicated for students between the ages of 6 to 15 that started in 2018.

The school will be **twice the size** of the first one with 6 classrooms, cafeteria, bathroom stalls, solar panels, and 35,000L water system.
