

# BEFORE TRAVELING CHECKLIST

01

## TYRES

Regularly check your tyre pressures. Look out for cuts or wear, making sure your tread is within legal limits.

02

## ENGINE OIL

Use your dipstick to check oil levels and before any long journey. Top up if needed.

03

## WATER

While your engine's cold, check your coolant level is between the MIN and MAX marks.

04

## WINDSCREEN WIPERS

Replace your windscreen wipers once a year to prevent smearing.

05

## SCREENWASH

Keep it regularly topped up with a good screenwash additive, one that prevents it from freezing and clears oily grime.

06

## WINDSCREEN

Keep an eye out for stone damage and, if you spot any chips, get them repaired.

07

## POWER STEERING

Make sure your garage fills your hydraulic fluid reservoir when they service your car.

08

## LIGHTS

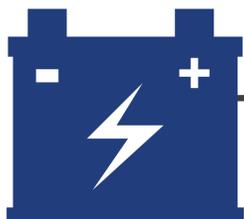

Check all your lights, including indicators, reversing lights, brake lights and fog lights. Always drive with your lights on as required by law.

09

## BATTERY

If the battery in your car is more than a couple years old, check that the terminals are corrosion-free, while the positive and negative leads are tight.

10

## HOSES

Designed to hold coolant under pressure, these are subject to extremes shifts of temperature. If you spot any cracks or pinholes, get them repaired.
